## St. Augustine Grass

***For pricing and delivery information call 800-634-1672 or find additional information at [www.super-sod.com](http://www.super-sod.com)***

St. Augustine grass is native to the Gulf of Mexico, the West Indies and Western Africa and has been planted in home lawns in the US since the 1890's. This medium green colored turf is adapted from the Carolina coasts to Texas and into Mexico.

Mercedes St. Augustine, selected by the Patten Seed Company and *SuperSod*<sup>®</sup> for its superior performance, is well suited for home lawns and commercial landscapes throughout the Mid- to Deep South.

Mercedes provides the following:

- **More cold tolerance than other St. Augustine varieties**
- **Medium-finer leaf texture than other St. Augustine varieties**
- **Best propagated as sod**
- **Spreads by surface runners and roots quickly**
- **Shade and summer heat tolerant**
- **Salt tolerant**
- **Adapted to a soil pH range of 5.0-8.5**
- **Can be mowed at heights of 1 to 3 inches**

Mercedes is a proprietary variety of the Patten Seed Company and is produced and distributed by *SuperSod*<sup>®</sup> farms and outlets around the Southeast.
